Teaching experience in IP

- Proposed, designed and offered the first IP course at Bogazici University:
 - I designed and prepared the first and only undergraduate course in IP, designed particularly with non-law students in mind, which is entitled 'Legal Aspects of Intellectual Property Management' (Course code: AD 462.01). I offer the course in the spring term of each academic year as an elective course to senior standing students. I first offered this course under 'Special Topics in Management', prior to having the IP course approved under its current title by the Department, Faculty and finally the University Senate.
 - I offer a slightly advanced version of the course to postgraduate students and executive level students, which consist of mid to high level managers and who attend the professional MA (as an elective course on the Engineering and Technology Management Executive Programme under the title of “ETM 532-Legal Issues in Engineering and Technology Management”) and Executive MBA courses (as electives under the title of “ADEX 587-Legal Issues in Advertising and Merchandising” and “ADEX 58 – F Protection of Innovative Business Ideas, Products and Services” at Bogazici University).
-

Teaching Awards:***‘Outstanding achievement in teaching’ award (2017):***

- I received an award for ‘Outstanding Achievement in Teaching’ achievement at the graduation ceremony of June 2017 based on both terms for the academic year of 2016/2017-1 (fall term) and 2016/2017-2 (spring term), which coincided with the 150th graduation ceremony.
 - The criteria for the award included “performance evaluation results” that are submitted confidentially by students who are enrolled on my courses through the online system.
 - The Department subsequently nominates the lecturer in question for approval by the faculty of the Department, followed by the Faculty of Economics and Administrative Sciences and the University Senate.
-

- The outcome is submitted for the recognition and endorsement of the Rector and that of the University Foundation.

'Most liked academic at university' award (2016):

- In 2016 I was awarded the "Most liked Academic" award, which was held for the first time by the University Student Representative Council in its history.
 - Unlike the above mentioned award for "Outstanding Achievement in Teaching Award", the sole criterion for this award were based entirely upon the number of votes that were cast exclusively in accordance with the personal preference and choice of the University's entire student population.
 - There were several categories for "Most Liked" awards including the most liked alumnus, personnel, student club, sports club, animal companion on campus, cafeteria as well as the one for which I happened to be nominated by students.
 - The winner in each category was determined in accordance with the highest number of votes by students.

All other IP related former legislation were harmonized with that of the EU and came into effect through legislative degrees in order to meet the deadline laid down by the EU. I spent 8 months at the Institute of Advanced Legal Studies in London and another 6 months in Istanbul to review, edit the translation with commentaries and criticisms that accompanied the text in English. The text of the Decree consists of 135 Articles and a number of amended Articles that were subsequently made. The length of the translated Decree spans 78 pages in the Journal (pp. 267 – 345).
